Abstracts
May 10, 2012
Plase check your abs (Title, Authors) and send us now updated data!

1) Abenavoli L. M., Proto A. R., Benalia S., Callea P., Smorto D.
   Productive aspects and acoustic levels in a modern sorting and calibration plant for
   kiwi post-harvest processing

2) Ade G., Martelli R., Lanzoni A., Radeghieri P., Pezzi F.
   Foliar application of nematodes for noctuid moths control in spinach with traditional
   boom sprayer

3) Aiello G., Catania P., La Scalia G., Pipitone F., Vallone M.
   A novel device for assessing the health risk caused by hand-arm vibrations in olives
   harvesting

4) Alwall Svennefelt C., Lundqvist P.
   Migrant workers in Swedish agriculture and horticulture Part 1: perspectives of
   employers

5) Antonescu C., Antonescu M., Talmaciu M., Robu T.
   Entomofauna harmful and useful study of some agricultural seed lots depending on the
   chemical treatment against pests from NE Moldavian’s climatic conditions

6) Antonescu M., Antonescu C., Topa D., Nestian I., Robu T.
   Research regarding the influence of some organic products on potato yield in an
   environment from NE Moldavian’s climatic conditions

7) Ayers P., Davis, G., Yantis J., Kerrigan, S.
   Improving ROPS designs for agricultural tractors

8) Arcidiacono C., Porto S.M.C.
   The accuracy assessment of crop-shelter coverage classification obtained from per-
   pixel methods combined with texture analysis

9) Auger J., Arnault I., Assegond C., Sitnikoff F.
   SOPHY Project : Recent Changes in Agriculture Practices, an Acceptability
   Conditions Survey

10) Badache H., Shartai H., Benrebiha F.Z., Djebar M.R.
    Effect of Na$_2$SO$_4$ on the behavior of Atriplex halimus

11) Balsari P., Oggero G.
    Management of pesticide distribution remnants in italian glasshouses and vineyards

12) Benintende P.G., Costa G., Quattrone A.
    Evaluation of some pedogenetic volcanic soils of etna with multispectral
    satellite measurements and chemical analysis of soils
13) Bisaglia C., Cutini M., Romano E., Mastrangelo S., Marcolin F., Sensibile G.
   INTRAC: a research project on the integration of safety elements with ergonomics in the design of agricultural machinery

14) Calvo A.
   The sunrise of agricultural ergonomic and safety studies in Italy and in Europe

15) Capacci E., Rondelli V.
   Evaluation of human exposure to vibration according to a draft Tractor Testing Method

16) Caria M., Boselli C., Murgia L., Rosati R., Pazzona A.
   Effect of different vacuum levels on buffalo milking

17) Carreño-Ortega A., Vázquez-Cabrera J., Galera-Quiles M.C., López-Díaz G
   Reduction of the risks related to falling from heights in processes of greenhouses roof maintenance

18) Catania P., Salvia M., Argento F., Vallone M.
   Revegetation through hydroseeding in degraded mediterranean areas

   Climate conditions in a broiler house in Molise: experimental and numerical analysis

20) Cecchini M., Guerrieri M., Colantoni A., Monarca D., Bedini L., Cavariani F., De Rossi M., Fedrizzi M., Pagano M.
   A device for dust reduction during mechanized harvesting of hazelnuts

21) Cerruto E., Manetto G., Balloni S., Caruso L.
   A recycling tunnel to reduce environmental drift in spraying goblet vineyards

22) Checchi A., Casazza S.
   Risk factors in the wine industry

23) Checchi A., Casazza S., Devenuto L.
   Safety equipments in an equestrian facility

24) Chiriac G., Rășu L., Coroi I. G., Galeș D. C., Jităreanu G., Lăzărescu E.
   Effects of tillage and oilseed rape cultivar (Brassica napus L.) on soil physical properties and yield

   Accidents analysis during the chainsaw use: prevention and protection measures to reduce injuries

26) Cividino S.R.S., Vello M., Gubiani R., Snidero I., Maroncelli E., Pergher G., Colantoni A.
   Dynamic simulations to test the protective safety gloves: first results of a new methodological approach

27) Colantoni A., Monarca D., Bedini R., Marucci A., Pagniello B., Cecchini M.
Vegetable grafting in greenhouses: the risk of musculoskeletal disorders for workers due to repetitive movements of upper limbs

28) Comba L., Gay P., Ricauda Aimonino D.
Automation and robotics for workers health and safety improvements in pot-plant nurseries

29) Consorti S.B., Ricci A.
Work related stress in horticultural nursery: risk assessment and identification of the preventive measures

30) Cutini M., Romano E.
Analysis of the influence of different typologies of tires on the whole body vibration exposure of an industrial truck operator

31) Cutini M., Romano E., Bisaglia C.
A Software for Evaluating the Radial Eccentricity of Agricultural Tires for Ride Comfort Test

32) Deboli R., Calvo A., Preti C.
Transmissibility of agricultural tractors seats

33) Douphrate, D., Rosecrance, J.
Ergonomic exposure assessment of posture and muscle activity among dairy parlor workers in US large herd operations

34) Etsouri S., Kaci F., Bouaziz M., Etsouri K.
Study of the exploitable potential of Algerian Albian drillings

35) Failla S., Manetto G., Restuccia A.
Organic Plant Protection Treatments in Greenhouse and Open Field by an Electrical Prototype

36) Fedrizzi M., Pagano M., Perrino C., Cecchini M., Guerrieri M., Gallo P., Biocca M.
Inhalable dust emission in hazelnuts mechanical harvesting (Corylus avellana L.): test of a low impact suction-type pneumatic collector

37) Fedrizzi M., Pagano M., Perrino C., Recchi P., Biocca M., Gallo P.
Self-propelled prototype for hazelnuts harvesting (Corylus avellana L.): analysis of particulate matter emitted into the atmosphere

38) Fontanelli M., Raffaelli M., Martelloni L., Frasconi C., Peruzzi A.
Innovative strategy and machines for non chemical management of weed seed-bank and actual spontaneous flora in turf grass

39) Formato A., Guida D., Lenza A., Palcone, Scaglione G.
A machine to improve the safety during the chestnut mechanical harvest in steep zone

40) Gambella F., Deboli R., Preti C., Calvo A.
Vibration transmitted to operator’s hands by a new type of rotary pick-up
41) Gattamelata D., Laurendi V., Pirozzi M., Vita L., Puri D., Fargnoli M.
Designing and testing a compact roll over protective structure for agricultural wheeled narrow track tractors

42) Gattamelata D., Laurendi V., Vita L., Fargnoli M.
Roll over risk analysis for agricultural self-propelled ride-on machines

43) Geng Q., Salomon E., Field W. E.
Exposure to risk of musculoskeletal injury and over exertion during cattle handling cattle in open areas

44) Guanieri A., Maini S., Molari G., Rondelli V.
Development perspectives of electronic systems in pest control strategies

45) Guidetti R.
The foodservice sector: assessment and operative instruments to improve the safety

46) Gushchinsky A. G., Galchenko M. I.
Human reliability at electrical equipment service on agroindustry companies

47) Hagevoort R., Douphrate D., Rosecrance J.
Changes in the US Dairy Industry Require Development of Comprehensive Employee Training and Safety Programs

48) Jamal Ahmed Abbass, Mushtaq Talib, Faik M. S. Al Khalili
Effect of spraying nutritional solution “PRO.SOL” and chelated Iron on growth and flowering of Gazania plant Gazania splenden L.

49) Kaganovich A.A., Sapozhnikov S.V., Ovcharenko M.S.
Village of XXI century in the risk society

50) Kartoshkin A., Belyakov V., Belinskaya I.
Strengthening technical control for providing safety and health in agriculture and rural areas

51) Kartoshkin A.P., Belyakov V.V., Belinskaya I.V
Innovative and legislative components of the safety and health in agriculture and rural areas the north-western region of russia

52) Kryuchkov V., Zadontsev A.
Environment Safety and People Health Protection through Innovative Changing in Making Agricultural Production Using Nanotechnology

53) Liberati P., Zappavigna P.
A new testing technique for measuring the skid resistance of hard and soft flooring materials in dairy housing

54) Longo D., Muscato G., Schillaci G.
Design of a remotely operable sprayer for precision farming application

55) Manetto G., Cerruto E., Emma G.
Noise operator exposure in olive oil mills
56) Manetto G., Cerruto E., Schillaci G.
   Vibration operator exposure during olive harvesting

57) Manetto G., Failla S.
   Development of a Prototype for Mechanical Distribution of Natural Enemies

58) Marucci A., Pagniello B., Monarca D., Colantoni A., Biondi P., Cecchini M.
   The heat stress for workers during vegetable grafting in greenhouses

59) Marzban A., Sheikdavoodi M. J., Almassi M., Bahrami H., Shishebor P., Abdeshahi A.
   Health and Safety Aspects During Pesticide Application in Iranian Rice Growers'

60) Mattetti M., Molari G., Guarnieri A.
   Prediction of whole body vibration through a multibody model of a tractor seat

61) Mayrhofer H., Quendler E., Boxberger J.
   Analysis of accidents with self-propelled agricultural machines from 2008 to 2010 in Austria

62) May D. E.
   Understanding farmers’ willingness to produce healthy and safe products

63) Mazzetto F., Gallo R., Sacco P.
   A farm configuration system to supply LCA inventory analysis needs for the assessment of orchard performances

64) Mazzetto F., Gallo R., Vidoni R., Bisaglia C., Calcante A.
   Designing and testing a new small tractor prototype for the mechanisation of terraced-vineyard farming systems in South-Tyrol

65) Mehrzad Payandeh, Mansoor Behroozi Lar
   Comparison of noise level of tractors with cab and without

66) Mendes A.S., Gudoski D.C., Silva E.J., Morello G.M.
   Factors that impact the financial performance of broiler chicken production in Brazil

67) Montalti M., Lapini V., Molimu A., Cupelli V., Arcangeli G.
   Use of sunscreen as protective personal equipment (PPE) in a population of Italian gardeners

68) Murgia L., Rosecrance J.C., Gallu T., Paulsen R.
   Risk evaluation of upper extremity muculoskeletal disorders among cheese processing workers: A comparison of exposure assessment techniques

69) Nardini G., Lori V., Paroncini M., Candido D., Della Pasqua M.
   Risk due to noise during the olive harvest: the electrical and pneumatic harvesters

70) Nardini G., Lori V., Paroncini M., Candido D., Della Pasqua M.
International Conference RAGUSA SHWA 2012  September 3-5, 2012 Ragusa - Italy
“Safety Health and Welfare in Agro-food Agricultural and  Forest Systems”

Risk assessment due to transmission of vibrations from olive electrical and pneumatic harvesters to the Hand-Arm System (HAV): definition and evaluation of levels and exposure time

71) Nardini G., Paroncini M., Candido D., Della Pasqua M.
   Implementation of a system for evaluation risk and management safety in an Italy farm

72) Ndoci. B., Muhedini. P.
   Monitoring the epizootic situation of brucellosis in aborted cattle from livestock complexes, with serological tests and healthy program

73) Ortiz-Moncada D., Ayuga-Tellez E., Ortiz-Moncada R.
   Methodological application to meet the health impact caused by the use of compost with POP

74) Pascuzzi S., Russo G., Scarascia Mugnozza G., Verdiani G.
   Evaluation of the health risk for the farm workers operating in contaminated sites

75) Pessina D., Facchinetti D., Bonalume V.
   Vibration analysis on modern tracklaying tractors

76) Pochi D., Biocca M., Fanigliulo R., Gallo P., Pulcini P.
   Worker exposition to aerosol during the sowing operations with pneumatic precision drills

77) Pochi D., Del Duca L., Nataletti P., Vassalini G., Fornaciari L., Cerini L., Sanjust F., Annesi D.
   First investigation on the applicability of an active noise control system on a tracked tractor without cab

78) Porto S.M.C., Arcidiacono C., Anguza U., Cascone G.
   Detecting cows at the feed barrier by means of an image analysis algorithm

79) Proto A.R., Barreca P., Benalia S., Bernardi B., Zimbalatti G.
   Environmental management systems in sawmills in Calabria

80) Provolo G., Grimaldi D., Riva E.
   Environmental assessment of livestock farms: a comparison of different methods to estimate emissions to air

81) Raffaelli M., Fontanelli M., Martelloni L., Frasconi C., Peruzzi A.
   Innovative strategy and machines for physical weed control in agriculture and urban areas.

   Immunomodulatory effects of alpha-cypermethrin on cytokine production in greenhouse workers

83) Rapisarda V., Luca N., Marconi A., Fago L., Rizzo G.C., Mendola D., Alessi D., Rapisarda
Work-related musculo-skeletal disorders in farm workers of eastern Sicily

Assessment of the available databases on tractor fatal injuries to improve the accidents dynamic evaluation

New technologies in the cultivation of sugar beet (Beta vulgaris) and their relation to yield and quality in Iraq

Appropriate devices choice for the application of low environmental impact of pesticides in agriculture and urban areas

Technique for monitoring vitamin B2 in live plants

Detecting tomato crops in greenhouses using a vision based method

Prospects development of thermal power complex use renewable energy sources

Engineering and technical safety provision in AIC (Agro-Industrial Complex)

Influence of Precise Managing on the Competitiveness of Firms

Mathematical modeling of the functioning of the catalytic heater for heating a bioreactor of anaerobic digestion of organic waste

Mathematical model of thermal mixing in the anaerobic fermentation of organic waste

The results of mathematical modeling of thermal mixing in the anaerobic fermentation of organic waste

Preparatory groundwork for a safety management system for urban green areas

Proximal optical tester for precision agriculture and environment protection

Evaluation of mechanical and rheological aspects of the malaxed olive paste
98) Topa D., Ailincai C., Raus L., Antonescu M., Jitareanu G.
   Effect of tillage on soybean crop yield and physical properties on a chambic chernozem

99) Vassalini G., Fornaciari L., Pochi D., Grilli R., Fanigliulo R.
   Safety aspects in the utilization of agricultural tractors

100) Vello M., Cividino S.R.S., Gubiani R., Pergher G., Colantoni A.
    Safety at the workplace in the grafted cuttings production: first results of a study in Friuli-Venezia Giulia (North East of Italy)

101) Volpi D., Sciarra G., Nannicini C., Fabiano F., Marchi E., Neri F., Piegai F., Poggi L.
    First surveys on chainsaw operators’ hard wood dust and exhaust gases exposure: a Tuscan project (P)

102) Waberer, M.; Quendler, E.
    Horticultural Therapy for Burnout Patients at Farms

103) Zimbalatti G., Bernardi B., Smorto D., Benalia S.
    Hazelnuts mechanical harvesting in Calabria: preliminary trials on work productivity
